LED TEGOLIGHT **UP**

Brilliant shelf lighting from the bottom up

TEGOLIGHT UP

The revolution for shelf lighting

TEGOLIGHT **UP** FEATURES:

Material: PMMA / silicone co-extrusion

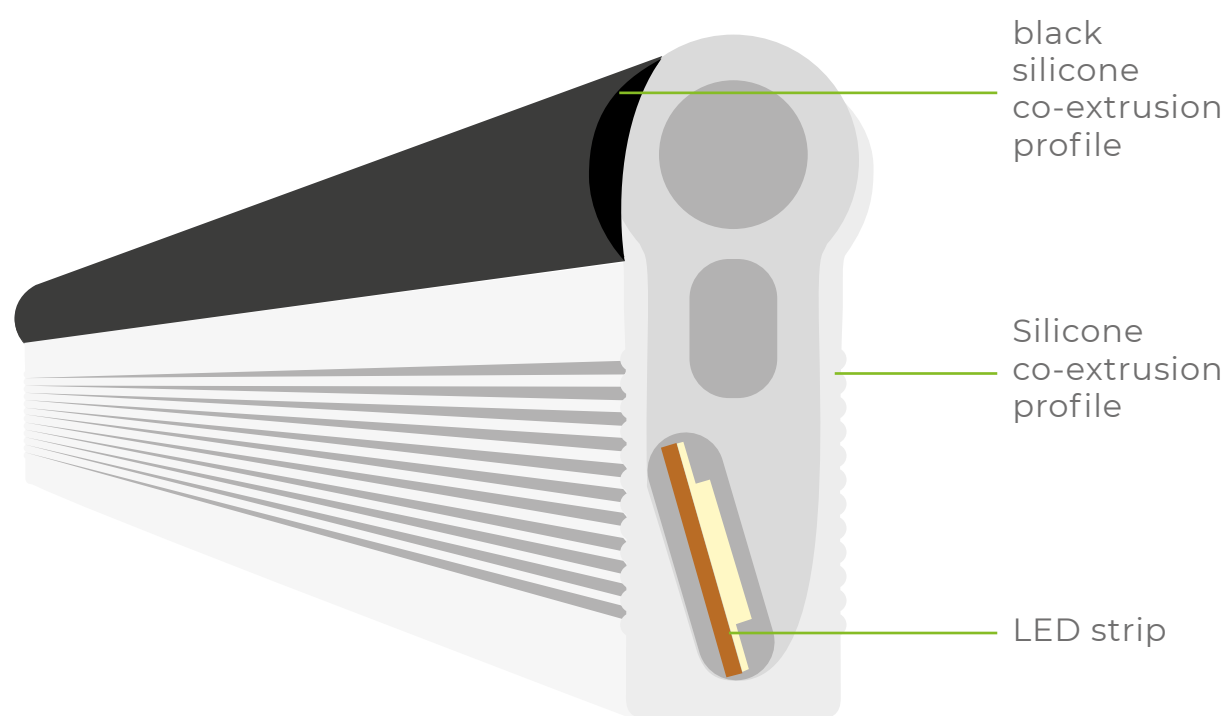

Dimensions: 585/985/1185 x 7,9 x 18 mm

Operating voltage: 24 V DC

Power: 15 W

The TegoLight **up** is a highly flexible linear luminaire manufactured using a silicone co-extrusion process with a translucent PMMA body. It features a high-performance LED module and a permanently sealed black end profile on one side. The integrated end profile discreetly directs the light towards the shelf and the displayed products, creating an attractive upward lighting effect.

DIMENSIONS

INSTALLATION

TegoLight **up** simply fits into the front groove of a standard metal shelf.

Press it gently into place until the luminaire sits almost flush with the shelf surface. This means it does not interfere with shelf replenishment or product removal.

Simply connect the luminaire using the matching adapter – no tools required.
